Leading Designs for Architecture

Find Your Perfect Fit

Showers for Every Case

Design your shower for your needs: our portfolio provides you with a variety of options – for a bathroom that is as unique as you are.

1

Reasons for a Dornbracht Shower

Gets to the heart of what makes a Dornbracht shower product so special:

Trail-blazing design, unique water experiences and simple concealed solutions.

3

Mix & Match – Customize Your Shower

The representation of product variants gives you the opportunity to get creative, and implement your own applications – in line with your personal taste.

2

Dornbracht Showers

Be inspired by our pre-defined solutions in all product and price categories: We show you application examples to help you realise your personal use case – in style and in size. Our solutions fit all circumstances.

Our Services

1 Reasons for a Dornbracht Shower

What makes a Dornbracht shower so distinctive? What distinguishes it from the rest and makes it a safe option for the long term? One thing is certain: With a Dornbracht shower, you are always opting for an exceptional water experience.

Everything matches – from the washstand to the shower: with Dornbracht, it is possible to have all the fittings throughout your bathroom in the same design. Recurring forms, handles or rosettes create a consistent look throughout the room.

Consistent
Form
Language

Tone on Tone

With Dornbracht, it is possible to give all products a uniform finish, thus creating a harmonious overall picture across all bathroom applications. There is a variety of carefully curated finishes to choose from, ranging from timeless, classic colours, to elegant golden hues, to expressive dark variants.

Our selection of finishes can be found on page 72

The Fascinating Shapes of Water

Most of our know-how goes into the development of innovative and effective flow modes. We shape the element of water in fascinating ways – whether as a powerful waterfall, a

crystalclear laminar flow, or as fine rain. Dornbracht rain is special: Its secret lies in the ample droplets that burst so softly onto the skin, it is as if they have fallen from the clouds.

From Energizing to Relaxing

Dornbracht showers offer a varied selection of flow modes that are geared to different requirements. Whereas invigorating flow modes lend a refreshing energy to the morning

shower ritual, gentle flow modes create a relaxing atmosphere – for memorable moments of calm and relaxation in your own wellness oasis.

Regular
Regular flow rate

FlowReduce
Reduced flow rate with a full shower
experience

FlowReduce+
Maximum reduction of flow rate with
minimal effect on the shower experience
(x-tra Service)

FlowReduce – A Sustainable Approach

As a leading expert in water presentation, Dornbracht offers FlowReduce, for providing resource-saving products in the familiar Dornbracht quality. By saving money and

resources, the shower experience has become sustainable - water consumption is significantly minimised in these reduced flow products (up to 54 % for hand showers).

For additional sustainable resource consumption options, Dornbracht offers selected shower products in a FlowReduce+ version via x-tra Service.

shower](https://dornbracht.com/flowreduce-shower)

Invisible Perfection

With concealed solutions from Dornbracht, the installation of our fittings is completed easily and flexibly – and is totally invisible: by using the xGRID track system, all the elements are accurately aligned, both horizontally and vertically, behind the wall. Customised solutions can be perfectly implemented, even in difficult structural situations, for maximum creative freedom and uncompromising aesthetics.

xGRID for perfect alignment

With concealed products from Dornbracht, ambitious design solutions can be implemented quickly, easily, and perfectly.

3 Mix & Match – Customize Your Shower

Design your individual shower experience: Our modular system gives you more than enough freedom to design your bathroom. In many designs, recurring elements such as handles or rosettes give the bathroom a consistent look – right down to the washstand.

Others have such a puristic design that the possible combinations are even more wide-ranging. Here we differentiate between universal (goes with all designs) and series-specific (goes with selected designs, usually generic round and angular). So the design and fixtures of our shower solutions can be individualised in a variety of ways to match your wants and needs completely. All previous applications can either be implemented with alternative products, or upgraded by other modular components – just get creative.*

*Check whether individual cases are technically feasible.

Shower Sets

Mix and match your personal, design-oriented shower application of hand shower, control element and wall pipe with our shower sets. Also choose from different rosette design variants, and the desired hand shower functionality.

The products shown are merely a selection. For a complete overview, scan the QR code.

Shower Heads

Our pivoting shower heads, some with several flow modes, bring flexibility to your shower experience – according to need and shower zone. Choose from different designs with regard to the design language of the rosette and shower head. Also opt for one or more flow modes.

Shower Systems

Discover our shower systems and their varied sizes and high-quality finishes that cater to individual shower requirements in terms of design and comfort. Decide which feature you require in thermostat or mixer, and choose your design language option, the size of the rain shower, and the functionality of the hand showers.

The products shown are merely a selection. For a complete overview, scan the QR code.

Rain Showers

Bring the feeling of a natural shower of rain to your bathroom. Choose between an angular, round, or soft design language for the design, and between wall-mounted, ceiling-mounted or ceiling-integrated for the installation. You can also choose a variant with a second flow mode, and even light integration.

Rain Panels

Experience wellness for body and soul – in multi-sensory moments with our rain panels. In the angular design, you can choose from two different sizes and flow mode ranges, with light integration as an option. In the round design language, we offer an understated design for a boundless water experience, or a sculptural design that adds a defining touch to the architecture.

The products shown are merely a selection. For a complete overview, scan the QR code.

WATER MODULES

With Dornbracht WATER MODULES, it is easy to upgrade your bathroom to a private spa. They are adaptable, can be integrated into every shower solution, and enhance your daily spa and shower ritual: To promote individual well-being, life-force energy, and good health. The main difference between the different WATER MODULES is the

way the water is presented. Opt for our waterfalls, where water cascades over your neck, or for our massage modules, that target individual areas of your body with powerful bursts of water. The laminar flow in our Kneipp modules completely covers the skin in water, making therapeutic affusions easy to administer.

Hand Shower Sets

Choose the perfect solution for your individual shower application from various hand shower designs. The single-point attachment is not only minimalist, it also saves space. The droop of the shower hose in the complete hand shower set with two attachment points is gentle and aesthetically pleasing. Both variants are available in round and angular design languages. You can also decide on the functionality you expect from your mix-and-match hand shower.

Control Elements

Depending on the individual configuration of your outlets, you will also need a control element to manage the water. Surface mounted or concealed? As mixer or with thermostat function? One or more outlets activated simultaneously or individually? There are now many possible ways to control the flow of water in the shower.

xTOOL

xTOOL control elements offer numerous opportunities for individual bathroom design. Choose your solution according to the number of outlets, and opt for your preferred design. Your entire bathroom will look resplendent in the same design language.
